### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:
2. The prior art of record does not fairly suggest a polycarbonate composition containing inorganic material having anisotropic particle geometry and having total iron content of at least 12 ppm and less than 100 ppm.
3. Applicant's comparative data at Table 1 of the specification indicates an improvement in toughness and brittleness, as measured by the notched impact strength, for polycarbonate compositions having between 12 ppm and 84 ppm total iron content.
4. Furuta et al is cited on form 892 as providing technological background information. Furuta et al discloses compositions comprising polycarbonate having a total iron content of less than 1 ppm. See col. 9, line 1 through col. 10, line 55.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance." Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kriellion A. Sanders whose telephone number is 571-272-1122. The examiner can normally be reached on Monday through Thursday 6:30-7:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on 571-272-1119. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
